

Jinya Marray P. Gutierrez

Student | Web & Mobile Application Developer

Sucat, Muntinlupa City, PH | 0915 885 2303 | jinyajm03@gmail.com | https://jinyagutierrez.github.io/Gutierrez_Portfolio/

OBJECTIVE

To obtain an internship or entry-level position in Web and Mobile Application Development where I can apply my growing skills in programming, database management, and UI/UX design gained through coursework, independent study, and my capstone research project, while contributing my prior experience in administrative and data-handling roles and continuing to learn, adapt, and grow in a professional environment.

EXPERIENCE

Freelance Graphic & Web Design

2022 - Present

- **Sproutify:** designed and built an e-commerce website for a client's plants and gardening business using WordPress/WooCommerce (localhost prototype)
- **UCP IT Department Brochure:** designed a commissioned tri-fold brochure in Canva for Universal College of Parañaque's IT Department, promoting its BSIT and ACT programs
- **Data Encoding – Veeva:** performed freelance data encoding and entry work, ensuring accuracy and confidentiality of client information

Administrative Trainee

Adult Residential Facility – Ljb Corp Cobb Home, San Francisco, USA

- Completed on-site administration training involving filing, records management, and client documentation

ACCOMPLISHED PROJECTS

Game-Tight with Loctite (Henkel Hackathon) — UI/UX Mockup Designer

- A creator-led TikTok growth campaign pitch for Loctite Philippines; designed the Facebook and TikTok profile mockups

Baylo — Capstone Mobile App Project Developer, Researcher

- A barter web and mobile application capstone research project evaluated using the ISO/IEC 25010 quality framework

Homio — E-Business Proposal Developer, WordPress & WooCommerce Developer, Logo Designer

- An e-business proposal and WordPress/WooCommerce prototype (localhost) for an online home appliance store, including a product catalogue for Hanabishi, 3D Appliances, and IKEA products, with a brand logo designed in Canva

CON.SOUL (IT0059 – Advanced Interface Design) — Mood Board & Wireframe Designer

- A group branding concept for an eyewear brand; designed Mood Board 1, “fashion meets art and technology,” in Canva, and wireframed the e-commerce app screens (Home, Product Listings, Product Details, Cart, Checkout, Payment) in Adobe Illustrator

CON.SOUL (IT0001 – Basic Interface Design) — Mockup Designer

- Designed three brand mockups in Adobe Illustrator for the group's eyewear concept — business card, apparel, and product packaging
